

Water Cycle Song

(To the tune of “She’ll be coming ‘round the mountain”)

**Water travels in a cycle
—thank you, Sun.**

(Use pointer finger to make a big circle.)

**Water travels in a cycle
—thank you, Sun.**

(Use pointer finger to make a big circle.)

It goes up as evaporation,

(Move hands up to the sky.)

Forming clouds as it condenses,

(Make a cloud overhead with arms.)

**Then comes down as
precipitation.**

Thank you Sun!

(Sprinkle with fingers while bringing arms down in front of you.)
