# Stream Tables

Day 1

Starting Model

Ending Model

1. I noticed....

---

---

---

2. How does a stream table filled with sand, dirt, etc., model the surface of Earth?

---

---

---

3. How is this model accurate in showing the processes? How is it flawed?

---

---

---

4. How do weathering, erosion, and deposition working together affect the Earth's features?

---

---

---

5. How do the forces of moving water change Earth's surface?

---

---

---
