

## STUDENT HANDOUT

### Weather or Climate? Situation Cards

The average yearly rainfall in Hawaii is 78 inches.	It was cloudy and rainy all weekend.	Jenny's roof sprang a leak last week because of all the rain.	Arizona is dry most of the time.
In 2005, Hurricane Katrina hit the Gulf Coast.	When looking at the precipitation in the desert over time, we noticed that the desert is very dry.	The average low temperature for Austin, Texas, is 56°F.	It is usually raining in Seattle.
In a tropical rain forest it is very humid and rains almost every day.	The lowest recorded temperature for Austin, Texas, is -2°F.	A typical day in Brazil would be humid and hot.	A big blizzard in Connecticut caused power outages across the state.
The average high temperature for Austin, Texas, is 80°F.	Every year when Timmy goes to Colorado for Christmas, there is plenty of snow for skiing.	The daily forecast for Charlotte, North Carolina, is partly cloudy with a 30% chance of rain.	The highest recorded temperature for Austin, Texas, is 112°F.
Maria looked out her window and noticed it was a cloudy day.	Today it was sunny, but tomorrow there is a 10% chance of rain.	I had to put on a sweater today because it was cold.	Yesterday was the hottest day of the year.
